

REEDSPORT CHRISTMAS BIRD COUNT AREA TEAMS, DEC 27, 2017
Version 19DEC2017

The table below lists current Team Area assignments. Note that some teams are covering multiple areas. Don't fret about covering multiple areas. I delineated areas based mostly on continuity of access, not on size or time needed for birding coverage, so some of these are small or have little access. Please fill out different (separate) Tally Sheets for each area! Thank-you.

Some areas inherently have overlapping viewsheds. If you see lots of birds, or significant species, in another team's area, make a note of it on the back of your tally sheet and check with that team at countdown to see if it should be added to their tally.
